

### Annual Roll Out Plans 2008-2009 - Site Specific Information

<p>T-Mobile and Hutchison 3G UK Limited (H3G), who operate the Three network, have reached agreement to merge their network infrastructure. The consolidated network will be managed and maintained by a joint venture company, Mobile Broadband Network Limited (MBNL). The consolidation of existing infrastructure will allow both H3G and T-Mobile to significantly reduce, over the next three years, the number of individual sites held in the UK. As a result of this network consolidation the number of new network sites for H3G and T-Mobile will be significantly limited in 2008/2009.</p> <p>Should you have any questions in the interim please do not hesitate to contact:            William Comery, Community Affairs Manager (Southern UK) - william.comery@ericsson.com            Brian Spooner, Community Affairs Manager (Northern UK) - brian.spooner@ericsson.com</p>								Regional Planning & Environmental Controller	Regional Corporate Affairs Manager
