

## Litter Picker!

Grrr! Don't you hate it when the park's full of lousy litter? How can you play football, with foul filth all over the field? How can you skate when there's a scatter of scuzzy scum? Help Lewis pick up litter with this cool game.

Stick these sheets onto card (why not recycle an old cereal box?) Colour in the game board and the pieces, then cut them out. Get a mate and you're ready to play!

### How to play

1. Player One hides the map from Player Two and drops five bits of litter in different places on the map.
2. Player Two has to guess where each bit of litter is, by naming a square on the map, like this: 'Square A3'.
3. Player Two scores a point for each bit of litter found.
4. After Player Two has guessed ten times, the players swap over.
5. Player Two hides bits of litter, Player One has to find them.
