

Orange Annual Roll Out Spreadsheet 2008 - 2009

Unlike last year when all its proposed sites were included within Orange's rollout plans this year the plans only include proposed sites that are required for intergration into the network between now and end of 2010. Orange has not yet announced its plans for network rollout beyond that date. Consequently , the number of proposed sites on this year's plans will be fewer than shown on the last year's plans. Proposed Sites or Cell Search Areas - Cell search areas, where we are seeking to identify a site to locate a base station. These are indicative only and represent the centre of a limited search area rather than a specific site
