

Orange Annual Rollout Spreadsheet 2009-2010

1. Where a Proposed Site has no address information, it is still at cell search stage, where Orange is seeking to identify a site to locate a base station. The NGRs are indicative only and represent the centre of a limited search area rather than a specific site. 2. Like last year, the Proposed Sites included in this year's plans are either required to replace sites being lost through eg. notice to quit or new sites budgeted for integration into the network between now and end of 2010. Orange's intentions beyond end of 2010 are subject to business plans that will be sent next year.
