★ It should be noted that some units within the site boundary were completed prior to 1996

Local Development Framework

 Under construction

★ This proposal involves the redevelopment of a 21ha site to provide 25,551 sq m of business floor space. However as 20,441 sq m of this is for the replacement of existing buildings it was considered more appropriate to monitor the 5,110 sq m of new floor space provided which equates to a site area of 1.6ha.
