

Site Ref	R01	Site Name	The Valley
Site Size (Hectares)	0.14	Settlement	Radford Semele
Source	SHLAA 08	Land Type	Previously developed
Adjacent/ Overlapping Site		R03 Tinkers Close	

Suitability for Housing	
Location	Edge of village. Radford Semele has a range of services including a primary school, shop, community facilities and public transport to the towns.
Policy Restrictions	Adopted West Midlands RSS (2008) Policies RR1 & CF2: housing in rural areas should meet local housing needs and/ or support services, with priority given to the re-use of previously developed land and buildings within existing villages
Physical Constraints	The Valley is a narrow lane and is only capable of supporting limited additional road traffic. Planning history has highlighted flood issues
Potential Impacts	Development of the site could worsen flooding along The Valley and lead to an inappropriate linear extension of the village.
Environmental Conditions	Flood issues
Overall Suitability	Not suitable
Availability	
The site is currently available.

Site Ref	R02	Site Name	Hill Farm
Site Size (Hectares)	18.54	Settlement	Bishop's Tachbrook
Source	SHLAA 08	Land Type	Greenfield
Adjacent/ Overlapping Site	R11 South of School		

Suitability for Housing	
Location	Edge of village & extending beyond. Bishop's Tachbrook has a range of services including a primary school, shops, community facilities and a bus service.
Policy Restrictions	Adopted West Midlands RSS (2008) Policies RR1 & CF2: housing in rural areas should meet local housing needs and/ or support services, with priority given to the re-use of previously developed land and buildings within existing villages
Physical Constraints	Access arrangements potentially only adequate for reduced site size. National Grid high pressure gas pipeline runs through southern part of site.
Potential Impacts	Impact on physical form of village – disproportionate outward extension to south
Environmental Conditions	Satisfactory
Overall Suitability	Small proportion of northern part of site potentially suitable subject to National Grid consultation; access; and evidence of local housing need - limited infill around village boundary.
Availability	
Owner has expressed willingness to release land for development	
Achievability	
Housing Capacity	
Due to national and regional policy, the number of homes which can be accommodated on potentially suitable sites in and adjacent to rural settlements will depend upon levels of housing need in that particular settlement as well as the size and physical attributes of the site itself.

Site Ref	R06	Site Name	Land South of Baddesley Clinton
Site Size (Hectares)	3.49	Settlement	Baddesley Clinton
Source	SHLAA 08	Land Type	Greenfield
Adjacent/ Overlapping Site			

Suitability for Housing	
Location	Edge of Village. Baddesley Clinton has a very limited range of facilities.
Policy Restrictions	Adopted West Midlands RSS (2008) Policies RR1 & CF2: housing in rural areas should meet local housing needs and/ or support services, with priority given to the re-use of previously developed land and buildings within existing villages
Physical Constraints	Landfill site on south easterly edge of site – land remediation may be required Access point on bend in the road – visibility may be an issue.
Potential Impacts	Impact on physical form of village – disproportionate outward extension to south east. Impact on openness of Green Belt.
Environmental Conditions	
Overall Suitability	Potentially suitable in part for rural affordable housing subject to evidence of local housing need and satisfactory access.
Availability	
Owner has expressed willingness to bring forward the site for development	
Achievability	
Dependent upon ability to achieve a satisfactory access, evidence of housing need and the willingness of the owner to release part of the site for affordable housing	
Housing Capacity	
Due to national and regional policy, the number of homes which can be accommodated on potentially suitable sites in and adjacent to rural settlements will depend upon levels of housing need in that particular settlement as well as the size and physical attributes of the site itself.

Site Ref	R09	Site Name	Barford House
Site Size (Hectares)	4.39	Settlement	Barford
Source	SHLAA 08	Land Type	Greenfield
Adjacent/ Overlapping Site		R10 South of Barford House	

Suitability for Housing	
Location	Edge of Village. Barford has a range of facilities including primary school, community shop, other community facilities and access by public transport to the towns.
Policy Restrictions	Adopted West Midlands RSS (2008) Policies RR1 & CF2: housing in rural areas should meet local housing needs and/ or support services, with priority given to the re-use of previously developed land and buildings within existing villages
Physical Constraints	Protected hedgerows and trees within Barford House Estate Ability to achieve satisfactory access which does not have detrimental impact on Wellesbourne Road frontage and Conservation Area
Potential Impacts	Impact on the setting of Listed Building – Barford House Impact on Conservation Area Impact on Barford House Estate
Environmental Conditions	Satisfactory
Overall Suitability	Potentially suitable in much reduced area of site subject to satisfactory access, mitigation of impact on Barford House and Conservation Area and evidence of local housing needs.
Availability	
The site (along with R10) has been promoted for mixed uses to include sporting, recreation and community uses to meet needs identified in the Parish Plan. Availability potentially depends upon acceptance of a mixed use scheme. However, the level of housing required to support a mixed use scheme would be contrary to regional policy.	
Achievability	
Depends upon acceptability of a wider mixed use scheme and evidence of local housing need.	
Housing Capacity	
Due to national and regional policy, the number of homes which can be accommodated on potentially suitable sites in and adjacent to rural settlements will depend upon levels of housing need in that particular settlement as well as the size and physical attributes of the site itself.	

Site Ref	R10	Site Name	South of Barford House
Site Size (Hectares)	0.83	Settlement	Barford

Site Size (Hectares)	2.59	Settlement	Barford
Source	SHLAA 08	Land Type	Greenfield
Adjacent/ Overlapping Site		R30 Land south of Westham Lane; R55 West of Mill Lane	

Suitability for Housing	
Location	Edge of Village. Barford has a range of facilities including primary school, community shop, other community facilities and access by public transport to the towns.
Policy Restrictions	Adopted West Midlands RSS (2008) Policies RR1 & CF2: housing in rural areas should meet local housing needs and/ or support services, with priority given to the re-use of previously developed land and buildings within existing villages
Physical Constraints	Western part of site subject to noise from Barford Bypass. Access from Wellesbourne Road unlikely to achieve adequate visibility. Works to upgrade Westham Lane would have significant environmental impacts.
Potential Impacts	Site adjacent to Barford Conservation Area
Environmental Conditions	Satisfactory except for noise impact on far western part of site.
Overall Suitability	Potentially suitable in part subject to suitable access and evidence of local housing need.
Availability	
The site promoter proposes that the nursery be relocated to the back part of the site in order that the area of the site closest to the village can be released for housing. Suggested availability within 2 years.	
Achievability	
Dependent upon ability to secure suitable access and relocation of nursery.	
Housing Capacity	
Due to national and regional policy, the number of homes which can be accommodated on potentially suitable sites in and adjacent to rural settlements will depend upon levels of housing need in that particular settlement as well as the size and physical attributes of the site itself.

Site Ref	R22	Site Name	Land West of Bishops Tachbrook
Site Size (Hectares)	2.41	Settlement	Bishops Tachbrook
Source	SHLAA 08	Land Type	Greenfield
Adjacent/ Overlapping Site	R19 Land at Brickyard Farm; R18 Land NW of Rye Fields		

Suitability for Housing	
Location	Edge of village. Bishops Tachbrook has a range of services including a primary school, shops, community facilities and access by public transport to the towns.
Policy Restrictions	Adopted West Midlands RSS (2008) Policies RR1 & CF2: housing in rural areas should meet local housing needs and/ or support services, with priority given to the re-use of previously developed land and buildings within existing villages
Physical Constraints	Electricity line traverses site.
Potential Impacts	Northern part of site would impact on views from southern edge of Warwick/ Leamington
Environmental Conditions	Satisfactory
Overall Suitability	Potentially suitable, in part, subject to evidence of local housing need.
Availability	
The site is under the control of a single landowner who have confirmed that the site is available for development	
Achievability	
The site is capable of achieving a development within 5 years	
Housing Capacity	
Due to national and regional policy, the number of homes which can be accommodated on potentially suitable sites in and adjacent to rural settlements will depend upon levels of housing need in that particular settlement as well as the size and physical attributes of the site itself.

Site Ref	R28	Site Name	Land adj. Hall Farm Cottages
Site Size (Hectares)	0.2	Settlement	Hunningham
Source	SHLAA 08	Land Type	Previously developed
Adjacent/ Overlapping Site			

Suitability for Housing	
Location	Within village. Hunningham has a very limited range of facilities
Policy Restrictions	Adopted West Midlands RSS (2008) Policies RR1 & CF2: housing in rural areas should meet local housing needs and/ or support services, with priority given to the re-use of previously developed land and buildings within existing villages
Physical Constraints	Electricity cables
Potential Impacts	Development of the site would impact on access and parking for holiday accommodation at Hall Farm Cottages. Hall Farm Meadow Local Nature Reserve on opposite side of School Lane. Nearby Hall Farmhouse is a Grade II Listed Building
Environmental Conditions	Potential noise and air pollution from adjoining farm
Overall Suitability	Potentially suitable for affordable housing, subject to satisfactory parking and access arrangements for both this site and Hall Farm Cottages; separation from farm operations; and evidence of local housing need
Availability	
Owners have expressed willingness to release site for development	
Achievability	
Achievable subject to mitigation of impacts	
Housing Capacity	
Due to national and regional policy, the number of homes which can be accommodated on potentially suitable sites in and adjacent to rural settlements will depend upon levels of housing need in that particular settlement as well as the size and physical attributes of the site itself.

Source	SHLAA 08	Land Type	Greenfield
Adjacent/ Overlapping Site		R02 Hill Farm; R11 South of School; R17 Land at Brickyard Cottage; R19 Land at Brickyard Farm; R22 Land West of Bishop's Tachbrook	

Suitability for Housing	
Location	Edge of village. Bishop's Tachbrook has a range of facilities including primary school, community shop, other community facilities and access by public transport to the towns.
Policy Restrictions	Adopted West Midlands RSS (2008) Policies RR1 & CF2: housing in rural areas should meet local housing needs and/ or support services, with priority given to the re-use of previously developed land and buildings within existing villages
Physical Constraints	
Potential Impacts	Scale – in relation to size of existing settlement
Environmental Conditions	Satisfactory
Overall Suitability	Potentially suitable in small part subject to evidence of local housing need and scale of development in relation to existing settlement.
Availability	
Land in single ownership – owner has expressed willingness to bring the site forward for development	
Achievability	
Dependent upon evidence of need and satisfactory scheme in terms of scale	
Housing Capacity	
Due to national and regional policy, the number of homes which can be accommodated on potentially suitable sites in and adjacent to rural settlements will depend upon levels of housing need in that particular settlement as well as the size and physical attributes of the site itself.
