

Strategic Housing Land Availability Assessment

Site Assessments: Kenilworth

May 2014

Site Ref	K01	Site Name	Land at Thickthorn
Site Size (Hectares)	16.51	Settlement	Kenilworth
Source	SHLAA 08	Land Type	Greenfield
Adjacent/ Overlapping Site	K06 Kenilworth RFC; K09 Jersey Farm		

Suitability for Housing						
Location	Adjacent to Kenilworth urban area					
Policy Restrictions	Green Belt					
Physical Constraints	A number of mature trees which are subject to TPOs Surface water drainage potentially a problem in eastern part of site.					
Potential Impacts	Impact on area of low landscape value. Part of boundary adjacent to Ancient Woodland Impact on setting of Grade II listed Manor adjacent to site Loss of Grade 1 agricultural land					
Environmental Conditions	Southern boundary of site subject to noise and air pollution from A46.					
Overall Suitability	Potentially suitable, subject to Green Belt amendment and significant buffer to contain surface water, protect properties from noise, and to protect the listed building and ancient woodland.					
Availability						
Available for mixed use development (housing and employment).						
Achievability						
Achievable with a strong housing market and subject to appropriate contributions being made towards improving infrastructure and services.						
Housing Capacity						
Development Mix	Housing	50%	Other Uses	50%		
Potential Capacity	30dph	248	40dph	330	50dph	413
Timeframe (in terms of practicality only)	2014/19	200	2019/24	85	2024/29	0

K01 Land at Thickthorn

LOCATION PLAN

Scale:
1:5000

Drawn By:

Date:
21 October 2011

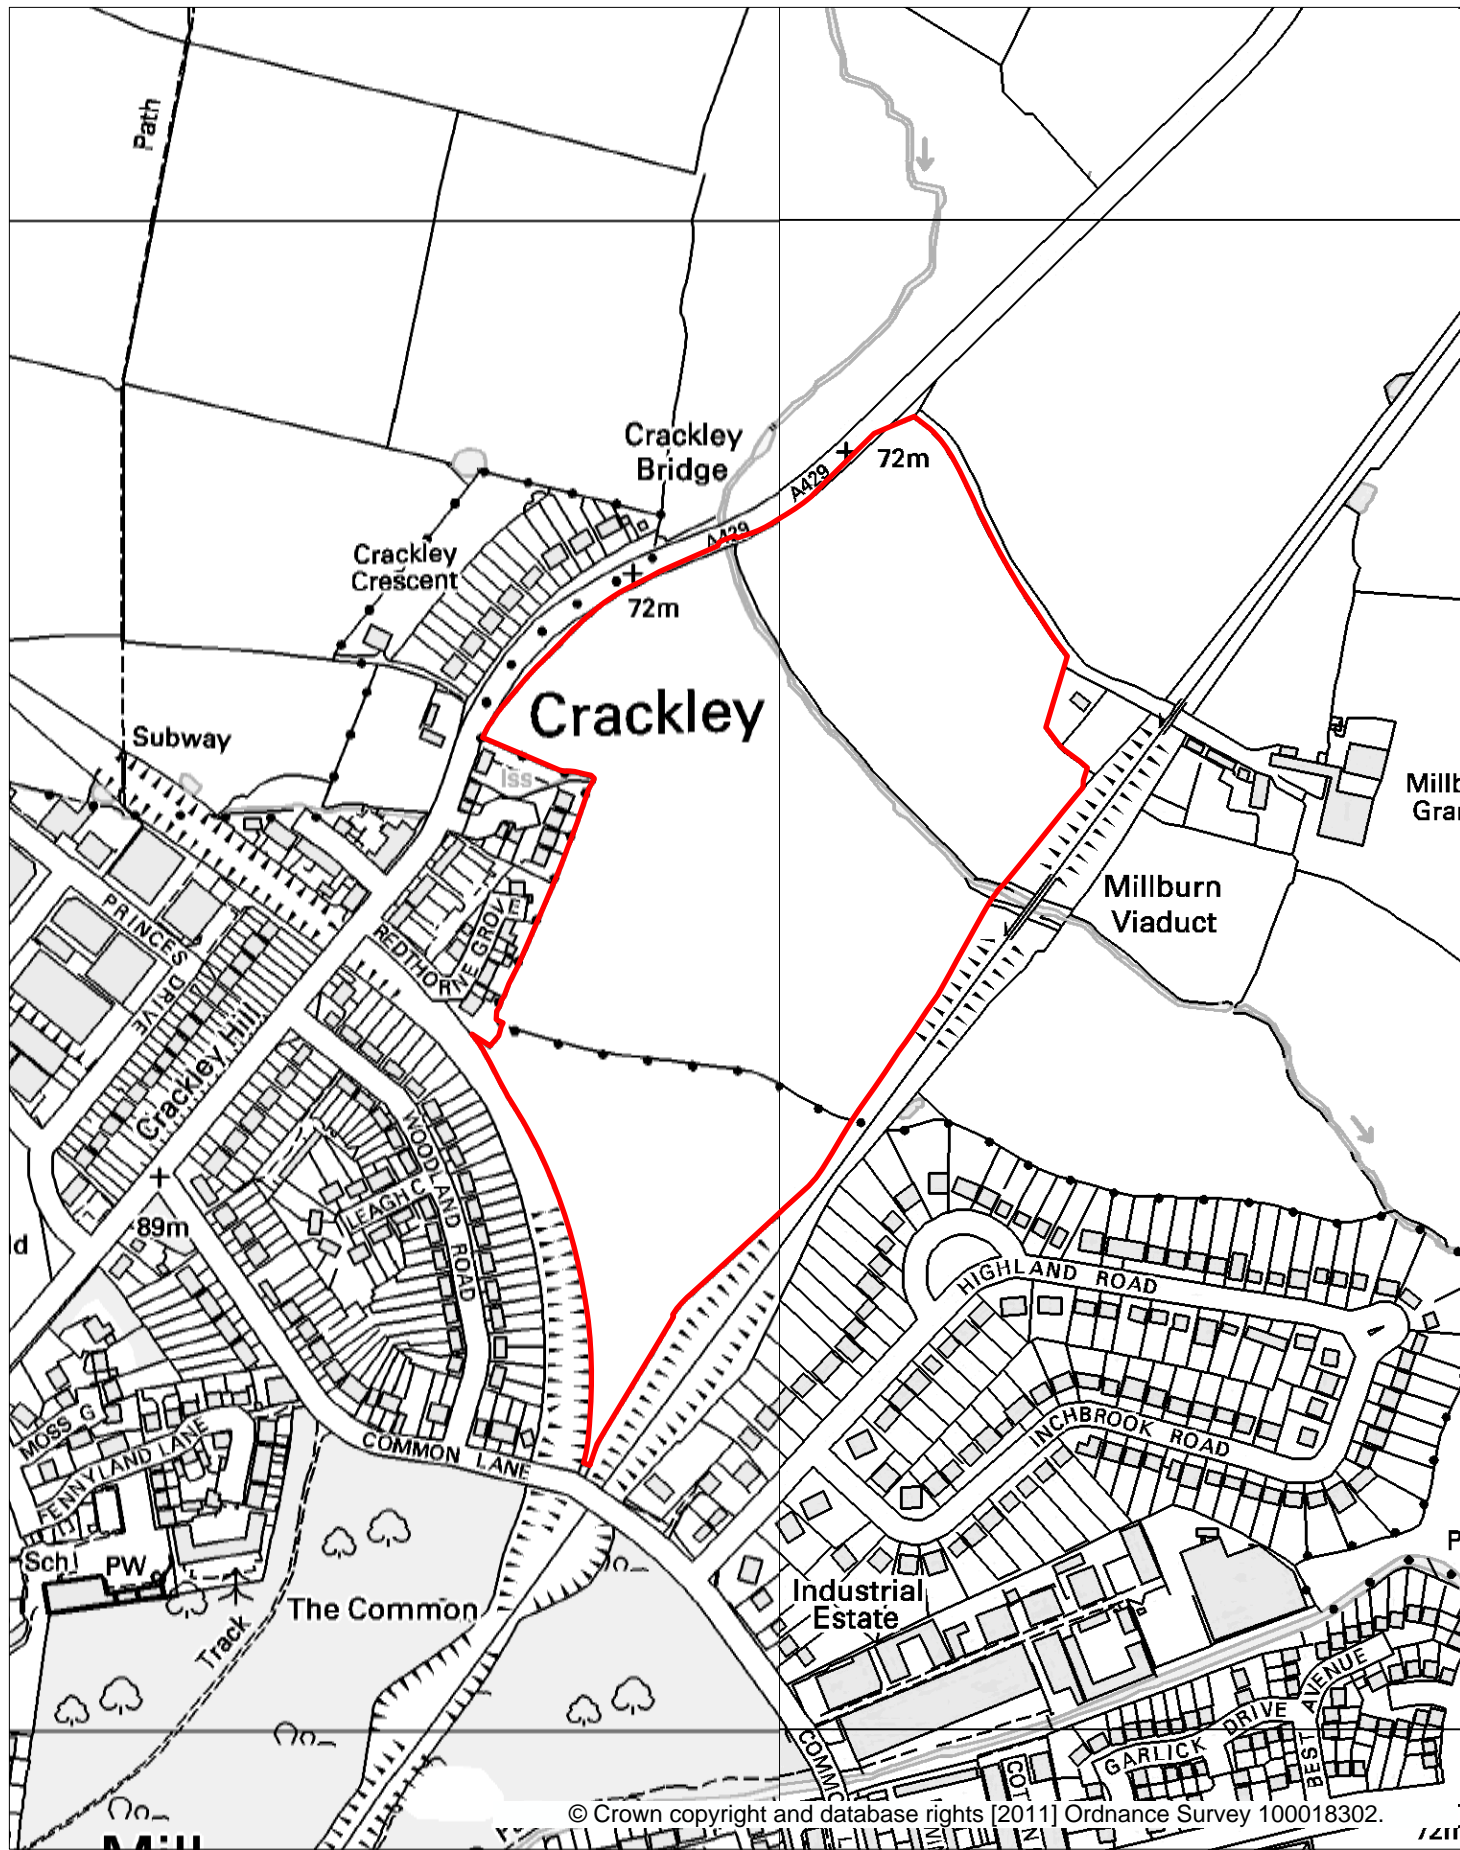

Grid Reference:
429863 E, 270738 N

North:

Site Ref	K02	Site Name	Crackley Triangle & East of Kenilworth Road
Site Size (Hectares)	14.26	Settlement	Kenilworth
Source	SHLAA 08	Land Type	Greenfield
Adjacent/Overlapping Site			

Suitability for Housing						
Location	Adjacent to Kenilworth urban area					
Policy Restrictions	Part Green Belt					
Physical Constraints	Flood Risk Zones 2, 3A & 3B run through northern part of site. Configuration of southern part of site.					
Potential Impacts	Within an area of high landscape value where development would extend the built-up area of Kenilworth into an area of open land which is visually important in landscape terms in maintaining the separation between the town and the urban edge of Coventry and avoiding coalescence of settlements. A number of prominent trees with TPOs on western boundary. Potential SINC on railway embankments					
Environmental Conditions	Potential ground contamination and noise from railway.					
Overall Suitability	Northern section not suitable due to flooding constraints, landscape impact and impact of extending Kenilworth in a northerly direction in an area where the gap between Kenilworth and Coventry is particularly sensitive. However there is potential scope for development in the southern “triangle” subject to: suitable access; contaminated land survey; noise assessment; air quality assessment & light impact assessment					
Availability						
Developer is currently working on a planning application for development of the southern “triangle” for around 75 homes						
Achievability						
Achievable, in part, subject to satisfactory access arrangements and satisfactory conditions in terms of land/soil quality, air quality, noise and light						
Housing Capacity						
Development Mix	Housing	67	Other Uses	33		
Potential Capacity	30dph	65	40dph	86	50dph	108

Site Ref	K19	Site Name	Woodside Training Centre
Site Size (Hectares)	15.01	Settlement	Kenilworth
Source	SHLAA 11	Land Type	Greenfield/ previously-developed Land
Adjacent/ Overlapping Site	K17 Southcrest Farm; K18 Glasshouse Lane/ Crewe Lane; K20 Kenilworth Wardens Cricket Club, Glasshouse Lane		

Suitability for Housing						
Location	Adjacent to Kenilworth urban area					
Policy Restrictions	Green Belt					
Physical Constraints	Part of Scheduled Ancient Monument (Roman Settlement at Glasshouse Wood) and potential SINC along east/southeast boundary. Area of Ancient Woodland within southern part of site Significant trees along southern and north western boundaries Access arrangements require further investigation regarding visibility. Underlying geology feeds a principal aquifer and any development must not compromise the quality of the water.					
Potential Impacts	Impact on Scheduled Ancient Monument, potential SINC and Ancient Woodland. Substantial buffers required and protection of species rich hedgerows essential to retain connectivity with woodlands.					
Environmental Conditions	Eastern boundary subject to noise and air pollution from A46					
Overall Suitability	Potentially suitable in part, subject to: <ul style="list-style-type: none">significant buffer to protect properties from noise and to protect Scheduled Ancient Monument, Ancient Woodland and potential SINCsatisfactory access arrangementsamendment to Green Belt boundary					
Availability						
Available – the site is still in use but in the control of a developer						
Achievability						
Achievable with a strong housing market and subject to appropriate contributions being made towards improving infrastructure and services						
Housing Capacity						
Development Mix	Housing	50%	Other Uses	50%		
Potential Capacity	30dph	150	40dph	200	50dph	250

Site Size (Hectares)	5.68	Settlement	Kenilworth
Source	SHLAA11	Land Type	Greenfield
Adjacent/ Overlapping Site	R64(1) Land NE of Leek Wootton		

Suitability for Housing						
Location	Edge of Kenilworth urban area					
Policy Restrictions	Green Belt					
Physical Constraints	Potential Local Wildlife Site straddles the railway embankment					
Potential Impacts	Impact on operation of neighbouring cricket club. Impact on area of high landscape value and views from south Impact on Green Belt of development extending beyond existing boundary of the built up area Impact on existing soft boundary of built up area of town comprising Bullimore Wood to east and cricket ground, Wootton Grange Farm and and school to the west. Impact on gap between Kenilworth and Leek Wootton. Further landscape study in 2014 (Addendum to 2012 Landscape Study) concludes that landscape impact could be mitigated with appropriate design and commitment to long term landscape enhancement.					
Environmental Conditions	Noise from railway. Impact of operation of cricket club					
Overall Suitability	Potentially suitable subject to a sensitive design approach to mitigate impact on the landscape and views from south as well as a commitment to long term landscape enhancement. Development should also seek to minimise impact on the operation of the Cricket Club and impact of noise from railway.					
Availability						
The landowners are promoting the site for development						
Achievability						
Subject to alteration of Green Belt; sensitive design approach and minimisation of impact on Cricket Club and of noise from railway
