

Site Ref	R71	Site Name	West of Station Road
Site Size (Hectares)	1.20	Settlement	Hatton Station
Source	SHLAA 11	Land Type	Greenfield
Adjacent/ Overlapping Site			

Suitability for Housing	
Location	Edge of a village. Hatton Station has a very limited range of services and facilities
Policy Restrictions	Green Belt
Physical Constraints	Access into the site cannot be achieved. Carriageway on the side road is not wide enough for two vehicles to pass each other. Configuration of the site - particularly at northern end where the narrowest part of the site is bounded on two sides by roads
Potential Impacts	Area of high/medium landscape sensitivity (2013 Assessment)
Environmental Conditions	Impact of noise from motorway
Overall Suitability	Not suitable due to site access problems
Availability	
Owner has expressed an interest in releasing the site for development	
Achievability	
Housing Capacity

Site Ref	R72	Site Name	Cubbington Wood Yard
Site Size (Hectares)	1.04	Settlement	Cubbington
Source	SHLAA 11	Land Type	Previously developed
Adjacent/ Overlapping Site			

Suitability for Housing	
Location	Not within or adjacent to a village
Policy Restrictions	
Physical Constraints	Northern part of site is a Potential SINC and includes part of designated Ancient Woodland (south Cubbington Wood). Alignment of carriageway constrains the available vision for suitable access and there is little scope to meet the necessary requirements.
Potential Impacts	Impact on Ancient Woodland and Potential SINC
Environmental Conditions	Remote from jobs, services and community facilities.
Overall Suitability	Not suitable – site not within or adjacent to a settlement and impact of development on ancient woodland and Potential SINC
Availability	
Owner has expressed an interest in releasing the site for development	
Achievability	
Housing Capacity

Site Ref	R74	Site Name	Land South of Arras Boulevard
Site Size (Hectares)	6.45	Settlement	Hampton Magna
Source	SHLAA 2011	Land Type	Greenfield
Adjacent/Overlapping Site		R98 east of Clinton Ave; R97 S of Lloyd Close	

Suitability for Housing	
Location	Edge of village. Hampton Magna has a good range of services and facilities
Policy Restrictions	Green Belt
Physical Constraints	Footpath traverses southern edge of site. Potential LWS adjacent to the site in SW corner. Drainage and sewage infrastructure is limited locally. Site levels will require addressing. Need to effectively manage on-site surface water.
Potential Impacts	Site is relatively prominent in the landscape with inter-visibility with historic core of Warwick. Within area of high landscape sensitivity (2013 Assessment)
Environmental Conditions	Satisfactory
Overall Suitability	Potentially suitable in part subject to sufficient site screening, satisfactory master plan and phasing
Availability	
Owner has expressed an interest in releasing the site for development	
Achievability	
Achievable subject to overcoming landscape and site screening issues	
Housing Capacity	
Potential for up to 100 homes subject to satisfactory master plan and phasing

Source	SHLAA 11	Land Type	Greenfield
Adjacent/ Overlapping Site			

Suitability for Housing	
Location	Not within or adjacent to a settlement
Policy Restrictions	
Physical Constraints	Some significant trees within hedgerows Potential contamination associated with farming activities Only one access point and this is only capable of serving a limited number of units. Transport assessment required to assess impact on wider network
Potential Impacts	Impact on Area of Ancient Woodland and Local Wildlife Site adjacent to western boundary Loss of some Grade 2 Agricultural Land
Environmental Conditions	Not located within or on the edge of a village and lack of adequate transport links to jobs and services in the towns
Overall Suitability	Not suitable
Availability	
Owner has expressed interest in releasing the site for development	
Achievability	
Housing Capacity	

Site Ref	R77	Site Name	Former Storage Depot Oakdene Crescent
Site Size (Hectares)	1.17	Settlement	Hatton Station
Source	SHLAA11	Land Type	Previously developed land
Adjacent/ Overlapping Site		R67 S of Elmdene Close	

Suitability for Housing	
Location	Edge of village. Hatton Station has only a railway station
Policy Restrictions	Green Belt
Physical Constraints	Narrow site access. Close proximity to railway corridor. Brook corridor around edge of site. Potential site contamination from previous use. Evidence of protected species on site
Potential Impacts	Close proximity to existing residential properties. Loss of informal recreational open space. Area of high landscape sensitivity (2013 Assessment)
Environmental Conditions	Potential site contamination associated with nearby railway use and previous use on site
Overall Suitability	Potentially suitable in part subject to overcoming physical constraints; appropriate provision of habitat for protected species; alteration of Green Belt boundary or evidence of local need for affordable housing
Availability	
Owner has expressed an interest in releasing the site for development.	
Achievability	
Achievable subject to overcoming site constraints, on site species issues and a full viability evaluation	
Housing Capacity	
Dependent upon extent, if any of Green Belt alteration or evidence of local need for affordable housing

Site Ref	R78	Site Name	Village Field (North)
Site Size (Hectares)	0.60	Settlement	Eathorpe
Source	SHLAA 11	Land Type	Greenfield
Adjacent/ Overlapping Site			

Suitability for Housing	
Location	Within built up area of village. Eathorpe has a very limited range of facilities and public transport
Policy Restrictions	Green Belt
Physical Constraints	Western part of site within Flood Zones 2, 3A & 3B Strong, uninterrupted hedgerows along northern and eastern boundaries. Narrow lanes unable to support much additional housing development
Potential Impacts	Impact on Eathorpe Conservation Area Impact on integrity and character of village by way of the loss of an important area of enclosed farmland, narrow lanes and strong uninterrupted hedgerows and the extension of the built area in a ribbon-type development along Penn Lane Loss of some Grade 2 Agricultural Land
Environmental Conditions	Satisfactory, although the village does not offer good transport links to the towns for jobs, schools and services
Overall Suitability	Not suitable due to impact on integrity and character of village and Conservation Area and partly high agricultural land value.
Availability	
Owner has expressed willingness to release site for housing along with R79 & R80 as part of a comprehensive scheme which would provide a village green, allotments and sports ground

Site Ref	R90	Site Name	Burrow Hill Nursery
Site Size (Hectares)	11.7	Settlement	Burton Green
Source	SHLAA14	Land Type	Greenfield
Adjacent/ Overlapping Site		R087 Red Lane to the south of New Farm	

Suitability for Housing	
Location	Edge of village. Burton Green has a limited range of services and facilities.
Policy Restrictions	Green Belt.
Physical Constraints	BPA Managed Pipeline (high pressure liquid fuel) runs through north east corner of the site. Coalfield Consultation Zone. Buildings on many parts of the site. Mature trees and hedgerows along frontage. Long Meadow Farm Grade 2 listed building to the south of the site. Elevated position - need to manage surface water.
Potential Impacts	Impact on area of high landscape value. Potential loss of hedgerows and trees. May require closure/relocation of business. Southern part of site would extend built form inappropriately to south. Majority of the land is of high landscape sensitivity with the exception of the area fronting Red Lane (2013 Assessment).
Environmental Conditions	Suitable subject to attention to drainage and protection of pipeline.
Overall Suitability	Potentially suitable in northern part subject to 3m protection zone for pipeline; management of surface water; protection of environmental quality; and satisfactory master plan and phasing
Availability	
The owners have expressed a willingness to release the site for development.	
Achievability	
Potentially achievable subject to overcoming layout and landscaping considerations.	
Housing Capacity	
Potential for up to 60 over the period 2014-2029, subject to HS2 issues.

Adjacent/ Overlapping Site			

Suitability for Housing	
Location	Edge of village. Hampton Magna has a good range of services and facilities.
Policy Restrictions	Green Belt.
Physical Constraints	The site slopes downhill away from Old Budbrooke Road. Potential lead pollution.
Potential Impacts	Impact on area of high landscape value. Within area of high landscape sensitivity (2013 Assessment).
Environmental Conditions	Connectivity to existing village - separated by relatively busy rural road. Potential lead pollution.
Overall Suitability	Not suitable due to high landscape impact and connectivity with existing village.
Availability	
Owner has expressed an interest in releasing the site for development.

Site Ref	R98	Site Name	Land to the East of Clinton Avenue
Site Size (Hectares)	5.62	Settlement	Hampton Magna
Source	SHLAA 2014	Land Type	Greenfield
Adjacent/ Overlapping Site		R74 South of Arras Boulevard	

Suitability for Housing	
Location	Edge of village. Hampton Magna has a good range of services and facilities.
Policy Restrictions	Green Belt.
Physical Constraints	A46 road corridor is within close proximity. Drainage and sewage infrastructure is limited locally. Proximity to sewage works.
Potential Impacts	Impact on an area of high landscape value in a highly visible Green Belt location. Potential impact of surface water drainage. Area of high landscape sensitivity (2013 Assessment).
Environmental Conditions	Noise from the A46 and odour from the sewage works will need to be addressed.
Overall Suitability	Not suitable due to high landscape impact and proximity to A46 / sewage works.

Site Size (Hectares)	0.31	Settlement	Hatton Station
Source	SHLAA 2014	Land Type	Greenfield
Adjacent/ Overlapping Site	R71 West of Station Road		

Suitability for Housing	
Location	Edge of the village location. Hatton Station has a very limited range of services and facilities.
Policy Restrictions	Green Belt.
Physical Constraints	Very close proximity to motorway corridor. Only suitable for small scale linear development.
Potential Impacts	
Environmental Conditions	Very close proximity to motorway. High levels of ambient traffic noise.
Overall Suitability	Potentially suitable in part subject to satisfactory noise mitigation; alteration of Green Belt or evidence of local need for affordable housing
Availability	
Owner has expressed an interest in releasing the site for development.	
Achievability	
Subject to viability given the size of the scheme and requirements for environmental screening and noise mitigation; Green Belt alteration; or evidence of local need for affordable housing	
Housing Capacity	
Capacity would be dependent upon extent of any Green Belt alteration or evidence of local need for affordable housing

Site Size (Hectares)	4.90	Settlement	Hockley Heath
Source	SHLAA 2014	Land Type	Greenfield and previously developed land.
Adjacent/ Overlapping Site			

Suitability for Housing	
Location	Edge of village location but does not directly abut the built up area of the village. Hockley Heath has a wide range of local service and facilities.
Policy Restrictions	Green Belt.
Physical Constraints	Aylesbury House is a listed building currently falling into disrepair within associated historic walled garden. Visibility splay for access is insufficient. Potential asbestos on site
Potential Impacts	Impact on setting of a listed building. Impact on openness of Green Belt and village form - some open areas between site and village.
Environmental Conditions	Satisfactory subject to proper disposal of asbestos.
Overall Suitability	Previously-developed part of site suitable in part for conversion of the listed house and limited redevelopment of outbuildings, subject to minimising impact on setting of historic building.
Availability	
Owner has expressed an interest in releasing the site for development.	
Achievability	
Achievable subject to viability.	
Housing Capacity	
Capacity would be dependent upon extent of any Green Belt alteration or evidence of local need for affordable housing

Source	SHLAA 2014	Land Type	Greenfield and previously developed land
Adjacent/Overlapping Site		R04 Land adjacent to The Meadow House; R109 Kingswood Farm	

Suitability for Housing	
Location	Edge of Kingswood village. Kingswood has a good range of facilities.
Policy Restrictions	Green Belt.
Physical Constraints	Area susceptible to surface water flooding. River Alne Local Wildlife Site (LWS) runs along the western edge of the site. Minor watercourse traverses the middle of the site.
Potential Impacts	Neighbouring Kingswood Farm is Grade II listed. 1-5 Old Warwick Road opposite the site is Grade II listed. Adjacent to Grand Union Canal. Potential Local Wildlife Site. Adjacent to listed waterways and listed locks.
Environmental Conditions	Part of the site is subject to surface water flooding.
Overall Suitability	Potentially suitable in part subject to mitigation of surface water flooding; protection of local wildlife corridor; alteration of Green Belt boundary or evidence of local need for affordable housing
Availability	
Development option available within two years.	
Achievability	
Potentially achievable subject to mitigation of surface water flooding and Green Belt issues.	
Housing Capacity	
Capacity would be dependent upon extent of any Green Belt alteration or evidence of local need for affordable housing

Site Ref	R118	Site Name	Land south of Hill Wootton Road
Site Size (Hectares)	6.46	Settlement	Leek Wootton
Source	SHLAA 2014	Land Type	Greenfield
Adjacent/ Overlapping Site		R141 Land near school	

Suitability for Housing	
Location	Edge of village. Leek Wootton has a limited range of services and facilities.
Policy Restrictions	Green Belt.
Physical Constraints	Proximity to A46 and buffer will be required, leaving limited developable area Trees on frontage to Hill Wootton Road.
Potential Impacts	Wootton Spinneys Potential LWS bounds the site immediately to the east. Loss of trees would impact significantly on the landscape character of the area. Loss of important environmental buffer between the settlement and A46. Area of high/medium landscape sensitivity (2013 Assessment).
Environmental Conditions	Satisfactory to western edge subject to noise mitigation measures.
Overall Suitability	Not suitable due to impact of loss of trees along the frontage, impact on landscape quality and loss of environmental buffer to A46.
Availability	
Owner has expressed an interest in releasing the site for development.	
Achievability

Site Ref	R120	Site Name	The Paddock, Warwickshire Police HQ
Site Size (Hectares)	2.27	Settlement	Leek Wootton
Source	SHLAA 2014	Land Type	Greenfield
Adjacent/Overlapping Site		R121 Land north of main entrance; R123 North Lodge	

Suitability for Housing	
Location	Edge of village. Leek Wootton has a limited range of services and facilities.
Policy Restrictions	Green Belt.
Physical Constraints	Site situated in the grounds of the Grade II Listed building of Woodcote. Tree Preservation Order covers the site. North eastern edge of the site borders Cattle Brook Potential LWS.
Potential Impacts	Potential impact on setting of a Listed Building and on adjacent potential LWS.
Environmental Conditions	Satisfactory.
Overall Suitability	Potentially suitable in part but any development should be planned as part of wider master plan for the whole Woodcote site.
Availability	
Landowner has marketed the site for sale.	
Achievability	
Subject to inclusion within a comprehensive master plan for the development of the former Police HQ site; and to alteration of Green Belt boundary	
Housing Capacity	
Capacity would be dependent upon extent of any Green Belt alteration, but could potentially include up to 30 dwellings

Site Size (Hectares)	2.62	Settlement	Leek Wootton
Source	SHLAA2014	Land Type	Previously developed land
Adjacent/ Overlapping Site			

Suitability for Housing	
Location	Accessed through long driveway some distance from village. Leek Wootton has a limited range of services and facilities.
Policy Restrictions	Green Belt.
Physical Constraints	Grade II Listed Woodcote on SW corner of site. A number of other buildings on site.
Potential Impacts	Potential impact on setting of listed building and on Cattle Brook potential LWS which abuts northern boundary of site.
Environmental Conditions	Satisfactory.
Overall Suitability	Potentially suitable in part subject to master plan for the larger Woodcote site integrating conservation and landscape considerations.
Availability	
Owner has expressed an interest in releasing the site for development. Communications building still operational & future use not yet known.	
Achievability	
Conversion scheme of Woodcote House achievable in short term (with some new build on hard standing areas).	
Housing Capacity	
Potential for scheme to deliver around 20 dwellings

Telephone: (01926) 450000. Facsimile: (01926) 456542.

Site Ref	R148	Site Name	Birmingham Road, Stoneleigh
Site Size (Hectares)	0.68	Settlement	Stoneleigh
Source		Land Type	Greenfield
Adjacent/ Overlapping Site			

Suitability for Housing	
Location	Edge of Stoneleigh
Policy Restrictions	Green Belt
Physical Constraints	Trees & shrubs present throughout site Configuration of site – suitable layout would be difficult to achieve
Potential Impacts	Backland development resulting in loss of soft edge to village boundary
Environmental Conditions	Satisfactory subject to layout
Overall Suitability	Not suitable – backland development resulting in loss of soft edge to village
Availability	
Landowner has expressed willingness to release the site for development	
Achievability	
Housing Capacity	

Scale:
1:1500

Site Ref	R150	Site Name	Confidential Site
Site Size (Hectares)	0.68	Settlement	Bishop's Tachbrook
Source	SHLAA 2014	Land Type	Greenfield
Adjacent/ Overlapping Site			

Suitability for Housing	
Location	On the edge of Bishop's Tachbrook, which has a good level of services
Policy Restrictions	
Physical Constraints	No road frontage. Backland development
Potential Impacts	Impact on views from Leamington/ Whitnash
Environmental Conditions	Backland development, facing outwards from village
Overall Suitability	Not suitable – backland site with no access
Availability	
Owner has expressed willingness to release the site for development	
Achievability	
Housing Capacity	

Site Ref	R155	Site Name	Land south of Hill Wootton Road
Site Size (Hectares)	0.50	Settlement	Hill Wootton
Source	SHLAA2014	Land Type	Greenfield
Adjacent/ Overlapping Site			

Suitability for Housing	
Location	Edge of village location. Hill Wootton is a hamlet with no services but close to Leek Wootton which has a limited range of services.
Policy Restrictions	Green Belt.
Physical Constraints	Close proximity to existing farmhouse and barn / storage units to the south of the site. Mature trees and hedgerow will limit site access points.
Potential Impacts	Potential impact on setting of Listed Grade II Hill Wootton Farmhouse opposite the site. Impact on area of high landscape sensitivity (2013 Assessment)
Environmental Conditions	Satisfactory.
Overall Suitability	Not suitable
Availability	
Landowner has expressed interest in releasing the site for development in the plan period.	
Achievability	
Housing Capacity	

R155 Land south of Hill Wootton Road
