## Form 4 – Fire Detection Self-Certification

Housing Act 2004 Part 2

I, (print name) ..... proposed licence holder/  
manager do hereby confirm that the fire alarm system, being a system of  
mains-operated interlinked detectors not containing a control panel located  
at ..... has been inspected and checked  
thoroughly by me on (date) ..... and all of the detectors  
have been found to sound simultaneously when tested and each appears  
to be in full working order.

Signed: ..... Date: .....

### Note 1.

This form can only be accepted for fire alarm systems without control panels which comprise of interlinked mains-operated detectors conforming to BS 5466 that have previously been certified by a competent person. We will require a fire alarm certificate (to BS5839 Part 6) from a competent person with an initial HMO licence application before we are able to accept future self-certification.

### Notes 2.

Fire alarm systems comprising control panels, sounders and break glass call points will require a competent person to provide commissioning and test certificates to BS 5839: Part 1.
