Date:

16 December 2016

---

Dear Mr Barber,

**Examination of the Warwick District Local Plan**

1. As set out at the closing session for the Examination Hearings, held on Thursday 15 December 2016, I can confirm that whilst I consider the submitted Local Plan (which constitutes the publication draft plan incorporating focussed changes) not to be sound, it can be made sound by modifications.
2. The Council has requested that I recommend such modifications. As discussed, I will be liaising with you via the Programme Officer to produce a schedule of proposed main modifications. You confirmed that the Council will undertake a sustainability appraisal of the main modifications and facilitate a full public consultation exercise. I will take account of the sustainability appraisal and comments received on the main modifications in producing my report to the Council.

Yours sincerely

*Kevin Ward*

INSPECTOR
