

Remember

KEEP  
CLOSED

**Never wedge open fire doors,** it affects the safety of you and your neighbours and you could be prosecuted if there's an injury as a result of this action

**Keep all communal areas free of obstructions,** furniture, pushchairs and rubbish

**Report any repairs or safety hazards** to Warwick District Council **on 01926 456129**

**Do not store combustible items** in any part of your home or any sheds you use within the block

**Ensure that cigarettes or other smoking materials are fully extinguished** before putting them into rubbish bags and placing in the bin chute.

**To take care when cooking, lighting candles** and using electrical appliances

**To check your smoke alarm weekly** by pushing the test button and reporting any problems on **01926 456129**

## Steps Warwick District Council has taken for your safety

### Chute Hoppers

- We have installed new bin chute hoppers. The new hoppers are fire rated and smoke sealed. To ensure your safety, care must be taken to use them correctly.

### Electrical Cupboard Doors

- We have installed new doors to the communal area electrical cupboards. These new doors provide better protection from the spread of smoke and fire. To maintain fire safety, the new fire rated doors will be kept locked.

### Electrical installations within the communal areas and to your apartments

- We will be providing every apartment with a new mains connection Fuse board, door entry system and TV cabling as well as new emergency lighting for the communal areas.

### Installed new doors on the bin chute lobbies and dry-riser cabinets.

- These new doors will provide better protection from the spread of smoke and fire

### Installed new doors to all communal areas including doors to stairwells, life lobbies and corridors

- These new certificated doors will be 60 minute fire resistant providing you with added protection from the spread of smoke or fire

### Your home has been equipped with a new TV Aerial connection box

- You can access standard TV through the upgraded aerial system and sky and virgin services have pre-installed sockets
- SKY and Virgin subscribers cannot connect your socket without first seeking permission from Warwick District Council
