

### Three - Annual Rollout Spreadsheet 2011 - 2012

Everything Everywhere (T-Mobile & Orange) and Three, through their joint venture company, Mobile Broadband Network Ltd (MBNL) are finalising the consolidation of their 3G networks. This will result in the joint use of existing base station site infrastructure & hardware which results in one set of equipment on site and enables the reduction of duplicate sites. Consolidated base station sites that are operated by Everything Everywhere & Three are identified in the 2011 -2012 annual rollout plans.

**Operator Definitions:**

**Three** - a site operated by Three only

**Everything Everywhere & Three Consolidated** - a consolidated site operated jointly by Everything Everywhere and Three

Please note that consolidated sites are shown on both Three and Everything Everywhere's 2011 - 2012 annual rollout plans
