

Mini Curators - Create your own mini exhibition

A curator is someone who works at a gallery or museum and decides what to collect and exhibit. Every object in Leamington Spa Art Gallery & Museum has been specially picked as it has a story to tell!

We're going to have fun today making and curating our own mini museum.

You can be in charge and decide what you'd like to put on display, whether this be your best-loved toys, drawings or your favourite leaves or flowers - **it's completely up to you!**

1 Find a box and decorate it however you like to make the museum.

You could paint it or cover it in paper.

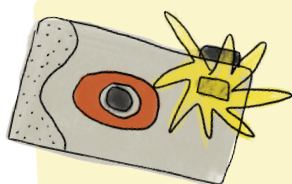

2 Collect the things you want to display.

3 Have fun arranging them and you can even make labels to explain what you have chosen.

4 Invite your friends or family to a private view and take them on a real life or digital tour.

Do send us any photos of your mini museum - **we'd love to see them!**
